

Mrs. Always-tired—"I do nothing but slave from morning till night. There's no chance for me to rest, even at meals or in bed—for I'm always worrying about the work that's ahead of me."

Anty Drudge—"Well, maybe I used to be that way, but since I use Fels-Naptha Soap for all my work, I've forgotten that I was ever tired."

Stop being a slave! Every woman wants some time for rest or pleasure. Make your life pleasant by making your work easy. You can do this if you use Fels-Naptha Soap.

Waste no time. Buy a cake today. Find out how easy it is to make your clothes, your paint, floors, windows, dishes—everything—look cleaner, brighter than ever before, with less work, in cool or lukewarm water, no hard rubbing and in half the time.

Full directions on the red and green wrapper.  
Fels & Co., Philadelphia.

## WEST VIRGINIA NEIGHBORS.

Mrs. Susie Ferrell, wife of Vinson Ferrell, died very suddenly at her home in Chapmanville last week after a slight illness of about 2 weeks, and was buried Sunday afternoon at the home of her parents on Big creek.—Logan Democrat.

Huntington, W. Va., Sept. 22.—Cad Mooney, a young farmer, while squirrel hunting near Chesapeake, Ohio, in company with his brother, fired at a squirrel darting along an old log and killed Albert Mooney with shot, inflicting wounds from which the brother will die. Both eyes were destroyed.

John Matthews, employed as a cook at the Y. M. C. A., fell under a train in the yards Wednesday and his leg was so badly crushed that amputation was necessary. It is said that Matthews had been drinking. He was taken to the Williamson hospital and reports from there Friday are that he will recover.—Mingo Republican.

Gas was found in the well being drilled on Buffalo creek by Col. F. L. Schoew when the tools reached the Indian sand last Saturday. Several exaggerated reports of the strike were circulated and great excitement prevailed for a time. It was told on the streets that the gas pressure was too strong to be controlled and that efforts to plug the well had failed.—Logan Democrat.

A. B. Kell, a contractor, is in the county jail at Welch awaiting preliminary hearing on a very grave charge, the second to be preferred against him within the week.

On Monday Kell was arrested by the county authorities on a charge of criminal assault, preferred by a J. A. Sarver, on whom the alleged crime was said to have been perpetrated. On this charge Kell waived preliminary examination and was held over to await the action of the grand jury giving bond in the sum of \$2,500, as required by the justice hearing the case. After the

release of Kell he returned to his work at Kimball, only again to be arrested on a charge rumored to be even more serious, and the definite nature of which the authorities have not announced.—Mingo Republican.

Huntington, Sept. 12.—To prevent mob violence in Williamson, W. Va., James Stokes, negro, accused of robbing and fatally wounding H. C. Tanner, white, was brought to Huntington at 10:30 o'clock last night and lodged in the county jail.

Tanner, an old man, is dying, according to telegraph reports received here late last night. He identified Stokes as his assailant.

Tanner was shot twice, one bullet striking him in the face and the other in the back, severing the spinal chord. He is paralyzed below the point where the bullet struck, and physicians at the Williamson hospital state that he cannot recover.

A. A. Karnes, former C. and O. baggage man, who was some time ago indicted at Huntington on a charge of stealing baggage in interstate commerce, entered a plea of guilty to stealing a pair of opera glasses from a suit case entrusted to his care as a baggage man and was sentenced to one year and one day in the West Virginia penitentiary.

Karnes had been for many years a trusted employee of the railroad company and his arrest several months ago created quite a sensation. It was alleged at the time that he had carried on his operations upon an extensive scale, and large quantities of goods alleged to have been stolen by him were later recovered by the officers from his home in Huntington.

The West Virginia Pulp & Paper Co., Covington, Va., has completed the big dam it has been constructing on Stony River, a tributary of the Potomac, some miles above its pulp and paper mills at Luke Mt. This dam is in Grant-co., W. Va., in the Allegheny Mountains, 3400 feet above sea level. It is to store water during the rainy season for release during the low-water season, so as to make the flow of the Potomac at Luke uniform throughout the year. Construction required about 600,000 feet of lumber, 1064 carloads of native stone crushed for concrete, 584,000 pounds of steel for reinforcing concrete work, and more than 16,000 barrels of cement. The dam will form a lake three miles long and one mile wide at its widest point, covering 400 acres. It will store about 1,500,000,000 gallons, enough to operate the pulp and paper mills from five to six months. The dam was built by Amburns Hydraulic Construction Co., Boston.

During the session of the special committee of the United States Senate, appointed to investigate conditions in the Paint and Cabin creek coal districts of West Virginia which was concluded here a few days ago, coal operators from West Virginia undertook to place responsibility for the strikes in the latter part of 1912 at the door of coal operators of Ohio, Western Pennsylvania, Indiana and Illinois, working in conjunction with officials of the United Mine Workers.

They endeavored to prove that the differences between the operators and miners of their state were not due to local disputes of work, or anything of that sort.

That this would be the attitude of the West Virginia operators when they came to Washington for the adjourned hearing was indicated while the special committee was conducting its inquiry in the coal regions of the state.

### OHIO FARMS FOR SALE.

Come to Ohio to locate. Buy you a farm at the least money and best soil adapted to grain, fruit and vegetables in the world, in a State that has no surplus and second to none. I have for sale Scioto river bottom land, also table or up level land, and some of the best hill lands, lays well, of good black loam soil, improved and unimproved, on good roads, handy to market and R. R. Good truck farms at marvellously low prices.

Come and look, it don't cost you anything but your train fare to see. We will contract from 10 days to six months by paying a profit down as good faith. Come to Lucasville, O., and call for CHANDLER, The Real Estate Man.

J. H. CHANDLER, Agt.,  
Box 74 : Lucasville, O.

Hans Schmidt, slayer of Anna Aumuller, asked that he be sent to the electric chair without delay. He stated that he could convince the Louisville authorities that he murdered Alma Kellner, but that it would be "false and laughable."

## POULTRY

### ROOST CLOSET FOR POULTRY

Considerable Stress Laid on Curtain in Front of House at Maine Experiment Station.

In the curtain-front type of poultry house used at the Maine experiment station a feature of the original plan on which considerable stress was laid was the canvas curtain in front of the roosts.

This curtain, together with the back wall of the house and the droppings board under the roosts, formed a closet in which the birds were shut up at night during cold weather. When the curtain-front house was first devised it was thought essential to provide such a closet to conserve the body heat of the birds during the cold nights when the temperature might go well below zero. Experience has shown, however, that this was a mistake. Actual test shows that the roosting closet is of no advantage, even in such a severe climate as that of Orono. On the contrary, the birds certainly thrive better without the roost curtain than with it. It has been a general observation among users of the curtain front type of house that when the roost curtains are used the birds are particularly susceptible to colds. It is not hard to understand why this should be so. The air in a roosting closet when it is opened in the morning is plainly bad. The fact that it is warm in no way offsets physiologically the evils of its lack of oxygen and excess of carbon dioxide, ammoniacal vapors, and other exhalations from the bodies of the birds.

For some time past it has been felt that the roosting closet was at least unnecessary, if not in fact a positive evil. Consequently the time of beginning to close the roost curtain in the fall has been each year longer delayed. Finally, in the fall of 1910, it was decided not to use these curtains at all during the winter. Consequently they were taken out of the house, or spiked to the roof, as the case might be. The winter of 1910-11 was a severe one. On several occasions the temperature dropped to 30 degrees below zero. Yet during this winter the mortality was exceptionally low and the egg production exceptionally high.

In view of this experience the station has decided to discontinue the use of the roost curtain. It would seem to be generally undesirable or at least unnecessary.

### FOR SHIPPING EGGS SAFELY

Holder Made of Corrugated Straw-board Is Provided With Small Hole at Each End.

This egg holder is made from corrugated strawboard, the egg being inserted by opening an overlapping joint at the side. The container is provided with a small hole at each end so that

Safety Egg Holder.

it may be opened and closed without tearing it, says the Popular Mechanic. The holder is adapted for sending eggs safely by parcel post, or carrying them with the least possibility of breakage.

## POULTRY NOTES

Eggs shipped by express are often quivered by baggage smashers.

The well-fed and well-cared-for fowl is the one that brings the profit. When the old hen begins to lay and whip her chicks it's time to wean them.

Fall chickens find a good market as roasters during January, February and March.

The poultry industry is growing beyond the hopes of its most radical friends.

Egg shells may be utilized a second time if crushed and turned over to the chickens.

The brooder has not, as yet, reached the stage of perfection that the incubator has.

Lack of moisture in the incubator means tough shells and dead chicks at hatching time.

To successfully use eggs in the artificial hatches one must, if possible, secure eggs of the highest vitality.

An egg laid in November and December will bring twice as much money as the one laid in March or April.

While heavy laying is as a rule desirable, phenomenal egg records are not a guarantee of strong, rugged offspring.

### RICHARDSON.

Rev. R. F. Rice preached at this place Sunday and Sunday night to a very large audience.

Mr. and Mrs. Forest Childers and children of Emma were visiting friends and relatives here a few days this week.

Miss Winnie Hinkle, of Inez was the guest of her cousin Miss Tennie Hinkle last week.

Mr. and Mrs. Carl Cassell spent Sunday with the former's parents Mr. and Mrs. D. C. Cassell.

Mrs. Clell Warnick and children, of Ashland were visiting relatives here a few days last week.

Mrs. J. W. Hinkle and children are visiting her sister at Heller, Kentucky.

Mr. and Mrs. Arch Childers and two little sons of Thealka spent last week with their parents at this place.

Frank Savage was calling on Miss Tennie Hinkle Sunday.

Mrs. K. B. Williams and little son Kenneth, of Peach Orchard spent Sunday with Mrs. Scott Martin.

Miss Mary Vaughan, of Gallup was calling on Miss Carrie Bartlett Saturday.

Lyman Vaughan, of Prestonsburg was visiting his brother at this place a few days last week.

Misses Carrie Bartlett and Goldie Price were dinner guests of Misses Josie and Rose Cassell Sunday.

O. F. Hinkle has accepted a position as operator at Louisa.

Joe Daniel and Walter Wilbur, who are working at Thealka spent Sunday with their families.

Mrs. Ida Cassell was visiting Mrs. Lydia Williamson Wednesday.

Miss Gypsie Vaughan was the guest of Miss Mabel Williamson Sunday.

Mrs. Cordelia Childers left Sunday for Ashland where she will visit her daughter.

Reck Childers and John Hinkle were calling on Misses Carrie Bartlett and Goldie Price Thursday.

Frank Preston, of Graves Shoals was a business caller here Saturday.

Mr. and Mrs. C. C. Cassell have gone to Pikeville, where they will go to housekeeping soon.

Ira See, of Louisa was a business caller here Monday.

Mrs. Cynthia Cassell has returned from Louisa, where she has been visiting her daughter.

Goldie Price, who has been visiting Miss Carrie Bartlett, returned to her home at Kewanee Monday.

Mrs. Cynthia Cassell, Ida Cassell and Lydia Williamson, were guests of Mrs. John Preston Tuesday.

Harmon Childers, who has been working at Kewanee, has returned home.

### Do You Fear Consumption?

No matter how chronic your cough or how severe your throat or lung ailment is, Dr. King's New Discovery will surely help you; it may save your life. Stillman Green, of Malchite, Col., writes: "Two doctors said I had consumption and could not live two years, I used Dr. King's New Discovery and am alive and well." Your money refunded if it fails to benefit you. The best home remedy for coughs, colds, throat and lung troubles. Price 50c. and \$1.00. Guaranteed by Louisa Drug Co.

Secretary Bryan closed his Chattanooga lectures for the season last night after issuing a statement saying he had cleared \$6,500 this year and that he would continue to lecture in spite of criticism.

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

N. C. 122

## ROAD BUILDING

### TEXAS BUILDING GOOD ROADS

Over Four Hundred Miles in Course of Construction—Many Counties Are Interested.

According to reports recently compiled for the consideration of the Texas Welfare commission, there are now in course of construction 437 miles of good roads within the state, with a prospect of double this amount during the next 12 months. On its face this looks like a large per cent. of improved highways for Texas, but on an area basis it is a small showing, and to secure the per cent. of mileage of good roads that the banner state, Connecticut, has we will have to build 525,000 miles more.

Several of the largest undertakings of the south are now contemplated in the state, and one or two have taken tangible form, writes Ida M. Darden, in the Houston Post. The Red river-to-the-gulf highway, the much talked of and long hoped for trans-state road, when built, will have a total mileage of 630, and will serve more than fifty million acres of the state's most desirable agricultural land. Two-thirds of the counties along the route of this proposed highway are now building their links of the great thoroughfare. It has been estimated by the Texas Commercial Secretaries and Business Men's association, who keeps close tab on road building throughout the state, that this highway will be completed

Macadam Road in Arkansas.

by 1914, at the present rate of construction. It is held that the improvement of roads adds \$10,000 per mile to contiguous property, and on this basis the building of the river-to-the-gulf highway will give a net increase in property values to property along this roadway of \$400,000,000.

The counties through which this highway will pass are Galveston, Harris, Waller, Brazos, Robertson, Falls, Limestone, McLennan, Hill, Navarro, Johnson, Ellis, Tarrant, Dallas, Denton, Collin, Grayson and Cooke, the road to be double-tracked from Hearne north.

Another highway of state importance is the Dallas-Texasarkana highway, beginning at Dallas and passing through the counties of Collin, Grayson, Fannin, Lamar, Red River and Bowie, which will cost approximately \$600,000. There are 2104 miles of public highways in these countries, and the building of the trunk line will probably result in the improvement of the entire mileage of the counties, as well as stimulate road building in counties adjoining the project.

### GRADE HALF MILE FOR \$7.50

Riley County, Kansas, Outfit Did the Work in One Day—Three Men Were Necessary.

One traction engine, one road grader, and three men graded a half mile of road in one day. This was accomplished on a Riley county road at a cost of \$7.50, says Kansas Industries. The engine, running on kerosene, consumed fuel at the rate of 20 gallons a day which, at a cost of 7 1/2 cents a gallon, cost \$1.50. Three men were necessary to do the work—one to run the engine and two on the grader.

With the exception of the engineer, the work can be handled easily by laborers. The cost of road grading ranges from \$15 to \$50 a mile, depending on the soil and condition of the road, the width graded, and the price of labor.

### Grass and Live Stock.

Grass and live stock should go hand in hand. There is no farm, in my judgment, which, if properly handled and kept at least one-half of the time in grasses and clovers, and gradually brought under a proper system of rotation, would not produce more, in fact, double the crops which it now does, and yet constantly be growing better and better.

### Chickens and Hogs.

If a woman can hate anything she hates a chicken-eating hog. The chickens don't know the difference between that kind and the other, so keep them apart, and keep peace in the family.

### A Good Thing at Times Not to Know Where Your Next Meal is Coming From

In the October American Magazine David Grayson, author of "Adventures in Contentment," writes a sketch entitled "The Friendly Road" in which he describes a tramp and philosophizes on tramping. The following is an extract:

"In a book I read not long ago the writer provides in his imaginary perfect state of society a class of leaders known as Samurais. And from time to time it is the custom of these Samurais to cut themselves loose from the crowding world of men, and with packs on their backs go away alone to far places in the deserts or on Arctic ice caps. I am convinced that every man needs some such change as this, an opportunity to think things out, to get a new grip on life, and a new hold on God. But not for me the Arctic ice cap or the desert! I choose the Friendly Road—and all the common people who travel in it or live along it—I choose even the busy city at the end of it.

"I assure you, friend, that it is a wonderful thing for a man to cast himself freely for a time upon the world, not knowing where his next meal is coming from, nor where he is going to sleep for the night. It is a surprising readjuster of values. I paid my way I think, throughout my pilgrimage; but I discovered that stamped metal is far from being the world's only true coin. As a matter of fact, there are many things that men prize more highly—because they are rarer and more precious."

### Safest Laxative for Women.

Nearly every woman needs a good laxative. Dr. King's New Life Pills are good because they are prompt, safe, and do not cause pain. Mrs. M. C. Dunlap, of Lead Hill, Tenn., says: "Dr. King's New Life Pills helped her troubles greatly." Get a box to-day. Price, 25c. Recommended by Louisa Drug Co.
